

NEOPAR

FIVE BAR

ULTRA-SLIM DESIGN FOR
VEGETATION & FLOWERING

FEATURES & SPECIFICATIONS

General Description

The NeoPAR is ideal for vertical rack and low mounting height applications. The NeoPAR 5 is designed to optimize photosynthetic photon flux (PPF) to produce quality growth at every stage of production in any operation, from lettuce to cannabis. The NeoPAR series provides the thinnest profile available with an onboard power pack. This slim design delivers unsurpassed light uniformity for damp locations. The NeoPAR series arrives fully assembled to limit labor cost with simple installation.

Mechanical Construction

The fully assembled product is a slim design compatible for different types of vertical farming. The overall size of the product is 45"x42"x3". The 5 LED bars mount to a structurally safe back plate. The LED bars are 3/8" thick x 2.65" wide x 45" long. The back plate spans across the equally spaced LED bars which houses the LED drivers, wiring and any controls systems that may be used as add on accessories. The product is easy to install using standard mechanical fastening systems.

Power Consumption

The NeoPAR is offered in two power levels to meet a variety of needs in grow operations. Whether the priority is to tailor output for a specific crop or maximize efficiency for energy restriction or rebates, there is a solution. Power ranges from 30-60 watts a bar depending on configuration.

Testing & Compliance

- RoHS compliant
- ETL listing for wet locations
- IP 67 Driver
- 5-year warranty
- L70: 50,000

SPECTRUM

F3 - This spectrum is known as the full cycle spectrum developed specifically to foster quality growth at each stage. It produces fast germination and high quality vegetative and flowering plants.

X6 - This full spectrum maximizes red and blue nm wavelengths to allow for optimal chlorophyll A and B absorption with a balance of green wavelengths to allow much deeper canopy penetration.

										P277

*Notes: Additional charges apply for including a 3-prong plug.

GENERAL ATTRIBUTES

Operating Frequency	50/60Hz
Operating Temperature	4°F to 104°F (-20°C to 40°C)
Dimensions	45" x 42" x 3"
Estimated Weight	25 lbs
Power Factor	>0.90
Warranty	5 years
